Sliding Gate Sensor Example

Automatic closing via Remootio

If you wish for Remootio to manage the automatic closing (instead of the gate controller) ensure to have the status sensor input installed and enabled. Once the gate begins to open Remootio will begin counting down before providing a closing command to the gate.

Output Configuration

This guide is based around the default setting of output 1 being disabled and Output 2 controlling the gate.

SOLAR SYSTEM!

time.

Ensure to enable "USE LOW POWER MODE" to reduce the system standby power requirement and increase the battery system usage and standby

Status sensor add-on

Status Installed (Input 1)

The status sensor reports the closed/open (locked/outlocked) state of your open for goroge door. You can also get goroge door is left apen for more than a certain amount of time or whenever it sopened using your oil &C (Input using the period of the control of the period with the period with the period with the period with the period of the p

Status Sensor Input

Ensure to enable if in use after connecting the sensor.
