

Specifications

Power: 12V DC
 Standby Current: ≤35 mA
 Operating Current: ≤100 mA
 Maximum Users: 10,000 Users in Standalone Mode
 Operating Temperature: -40°C to +60°C
 Operating Methods: PIN CODE, RFID, MOBILE APP
 Wi-Fi: 2.4GHZ ONLY, Up To 10 Metre Distance (1 Wall)

Default ADMINISTRATOR Code

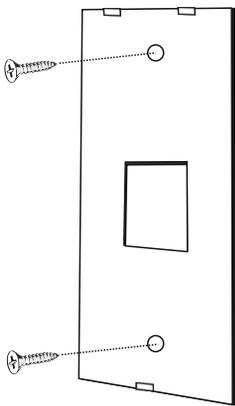

9 9 9 9 9 9

Programming Access Code ONLY

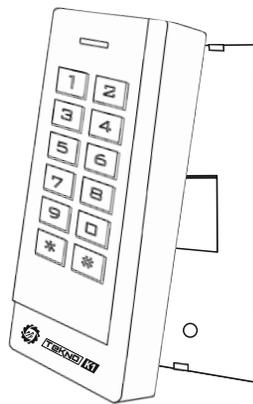

About

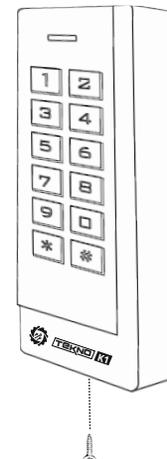

The Tekno K1 Wired keypad allows for access by pin number, RFID car/tag or by operation on the APP. It can operate as a stand-alone device or work with a Wiegand controller. Supporting NO and NC relay function it can momentarily pulse or latch up to 99 seconds. Two factor authentication is also available by CARD/TAG then PIN, or alternatively used as standard card/pin unlocking.

1. Install the backing plate to the post or wall using the appropriate fasteners.

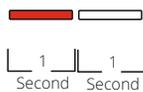

2. After completing wiring install the keypad to the backing plate clipping into the top clips from a 45° angle and bring down slowly till seated.

3. Install the small retaining screw.

Quick Reference to add a Common Pin Code

If only requiring a simple setup of only one common PIN code the step outlined below can be used to bypass all advanced steps and quickly add the PIN. Note that 1234 CANNOT be used as a PIN number.

* 9 9 9 9 9 9 # 0 9 A A A A A A # *

4-6 Digit PIN

Type * 9 9 9 9 9 9 # to access admin programming. Press * to exit programming (solid red indicator is standby)

Administrator

- Set new ADMIN Pin Number** 0 0 A A A A A A # A A A A A A #
6 DIGIT New Admin PIN REPEAT New Admin PIN
- Set the Admin "ADD" Card** 0 1 READ CARD *
- Set the Admin "DELETE" Card** 0 2 READ CARD *

System Functionality (Default Standalone Mode)

- Set the system type** 0 3 0 # Wiegand Reader
1 # Standalone Mode (DEFAULT)
2 # Relay Toggle Mode (Still standalone but replaces the timed relay with Latch on/off each correct pin number)

PIN Numbers

- Add/Overwrite a common code (NO user ID)** 0 9 A A A A A A #
4-6 Digit PIN
- Add a user with a User ID** 1 1 READ CARD
U U U U U # A A A A A A # 1234 CANNOT be used as a PIN number
UNIQUE User ID Number 1 -10,000 4-6 Digit PIN
- U U U U U # READ CARD
UNIQUE User ID Number 1 -10,000
- U U U U U # CARD NUMBER #
UNIQUE User ID Number 1 -10,000 8-10 Digit Printed Card Number
- Delete a user with a User ID** 2 1 READ CARD
U U U U U #
Individuals User ID Number
CARD NUMBER #
8-10 Digit Printed Card Number
- Delete ALL users (NOT the common code)** 2 0 0 0 0 0 #

Authentication and 2FA (Default Card OR Pin)

- 3 1 1 # PIN only, No cards
2 # Cards only, No pin's
3 # Card then PIN (2FA) , See 2FA Instructions
4 # Card or Pin (Default)

Relay Unlock/Latching Time (Default 5)

- 4 1 T T T #
0-300(Seconds)

Alarm

- Alarm Time** 4 2 T T # 0-99(minutes)
0=OFF
- Alarm Setting** 6 1 0 # No Alarm (Default)
1 # Built in buzzer will alarm after 5 incorrect operations for nominated "Alarm Time", correct code will turn off alarm.
2 # Lockout the access control system and flash the red led for 10 minutes, wait 10 minutes or power cycle the Tekno K1

Type * 9 9 9 9 9 9 # to access admin programming. Press * to exit programming (solid red indicator is standby)

Type *** 9 9 9 9 9 9 #** to access admin programming. Press ***** to exit programming (solid red indicator is standby)

Illumination and Tone

Status Indicator Light

- 6 2** **0 #** Disables the LED indicator in standby only
1 # LED Indicator always present

Numerical Key Illumination

- 6 3** **1 #** Enabled
T T # Back light on after key press for the nominated time
 2-99(seconds)

Key Press Tone

- 6 4** **0 #** Disable tone for users, still works in admin
1 # Tone Enabled

Adding Cards using ADMIN "Add" Card

1. Swipe the Admin "ADD" Card
2. Swipe all card to be added consecutively
3. Swipe "ADD" card to finish

Warranty Terms and Conditions

The product is warranted for a period of twelve months (one year) from the date of purchase, unless expressly specified as extended warranty (extension to the warranty period). The product is to be installed for its intended purpose and for normal use as outlined within the installation manual, the product warranty is exclusively for defects in manufacturing and manufacturing workmanship. It does not cover out of guidelines use, natural or other disasters, abnormal weather conditions, damage incurred in shipping or handling, damage caused by disaster such as fire, flood, wind, earthquake, lightning, excessive voltage, mechanical shock, water damage, damage caused by unauthorized attachment, alterations, modifications, or foreign objects, damage caused by peripherals (unless such peripherals were supplied by Automation Systems Australia), defects caused by failure to provide a suitable installation environment for the products, damage caused by usage of the products for purpose other than those for which it was designed, damage from improper maintenance, damage arising out of any other abuse, mishandling, and improper application of the products.

At its discretion Automation Systems Australia will require the item determined by the support staff to be returned to base in its original unmodified condition for a warranty inspection if within the warranty period. A return authorization "RA" number will be provided to be enclosed with the product in question. The warranty will not cover freight fees to base, customs fees or any labour costs at the installation site but will cover repair or replacement of the product as seen fit. Automation Systems Australia will cover the freight of the returned item to the original address if deemed as a warranty repair or replacement item. Any warranty repairs or replacements continue to carry through the remaining warranty period and do not extend or restart the period.

Under no circumstances shall Automation Systems Australia be liable for any special, incidental, or consequential damages based upon breach of warranty, breach of contract, negligence, strict liability, or any other legal theory. Such damages include, loss of profits, loss of the product or any associated equipment, cost of capital, cost of substitute or replacement equipment, facilities or services, down time, purchaser's time, the claims of third parties, including customers, and injury to property.

This warranty contains the entire warranty and shall be in lieu of any and all other warranties, whether expressed or implied (including all implied warranties of merchantability or fitness for a particular purpose). And of all other obligations or purporting to act on its behalf to modify or to change this warranty, nor to assume for it any other warranty or liability concerning this product.

Automation Systems Australia will at its option repair or replace out-of-warranty products at a determined cost which are returned to its base according to the following conditions. Anyone returning goods to Automation Systems Australia must first obtain an authorization number. Automation Systems Australia will not accept any shipment whatsoever for which prior authorization has not been obtained. Products which Automation Systems Australia determines to be repairable will be repaired and returned. A set fee which Automation Systems Australia has been predetermined and which may be revised from time to time will be charged for each unit repaired. Products which Automation Systems Australia determines not repairable will be replaced by the nearest equivalent product available at that time. The current market price for the replacement product will be charged for each replacement unit.
